## SMSCP Courses Graduates

Siemens first authorised education partner Talent Development (M) Sdn Bhd, produced a total of 46 graduates with SMSCP certification and 80 graduates were awarded with Siemens Industry Training (SITRAIN) programme certification.

**126 Malaysians graduate from Siemens programmes**

KEALA LUMPUR: A total of 126 Malaysians graduated from the Siemens Industry Training (SITRAIN) and Siemens Industry Training (SITRAIN) recently.

In a press statement yesterday, Human Resources Development Fund (HRDF) CEO Tan Sri Yip Guan Neo said one of the initiatives to build a strong vocational and apprenticeship culture based on the German model is through the National Dual Training System, which is an industry-related, flexible programme that combines workplace and institutional training.

"School leavers or existing workers who meet the criteria can be offered an apprenticeship by a sponsoring company or undergo training," he said.

Yip Guan Neo said all the graduates are currently employed.

"I am very pleased that with their professional qualifications, this batch of skilled workforce are always look forward to raising the productivity of the industry," he said.

The graduates ceremony was held by Siemens authorized training provider and education partner Talent Development (M) Sdn Bhd.

Both SMSCP and SITRAIN are fully supported by HRDF as agency under the Ministry of Human Resources.

The

provision, which have been developed from over 20 years of teaching and learning methods in Siemens industrial education centres, recognised by industry worldwide.

Malaysian systems are a combination of three engineering fields - electrical, mechanical and computer engineering - which also fit with increasing job-to-technology ratio process in almost every aspect daily life.

The highly certified SMSCP is supported by Siemens regional Application Centre in Berlin.

The recently Talent Development (M) Sdn Bhd, SMSCP is recognised by large

and local companies, industrial organisations and associations, schools and government agencies.

SITRAIN, also available in Kuala Lumpur, offers a wide range of industrial automation courses to address the industry problems with the necessary know-how.
